

MIAMI 2025

OPPORTUNITY ZONE SUMMIT

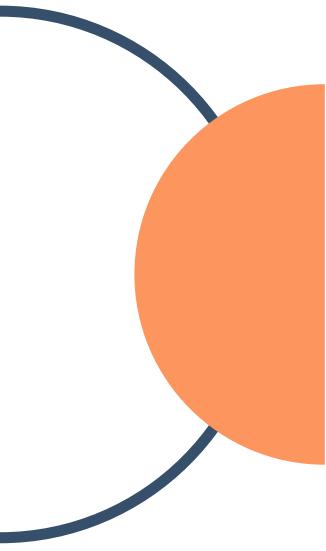

About the Miami Opportunity Zone Summit

April 11 | Phillip and Patricia Frost Museum of Science

As "The Capital of Capital," Miami has become a global epicenter for investment, innovation, and economic growth. With Brickell Avenue known as the "Wall Street of the South," the city is redefining how capital is mobilized to drive community transformation, business expansion, and economic resilience.

This Summit is a premier gathering of investors, developers, policymakers, and financial leaders, dedicated to fueling investment and growth in Opportunity Zones. This one-day event will bring together institutional investors, private equity leaders, venture capital firms, and real estate developers to explore how Miami is unlocking capital to revitalize neighborhoods, scale businesses, and drive long-term economic success.
